

## ADV.1 Wheels to Launch New Rims on Ferrari 599 Project

04/06/2012 16:40 by admin

Advance One Wheels is working full throttle together with SP Engineering to release a new project that uses the Ferrari 599 as a starting point, with the company offering us a teaser. The wheel specialist also said that it will introduce a new model of rims on the car, so we just can't wait for it to give us more than just the adjacent teaser image. Since we're talking about SP Engineering, we're waiting for ... [...]
