

DMC Aston Martin DB-X Concept Renderings Released

07/06/2012 12:41 by admin

Tuning an Aston Martin is no easy task, as playing with the elegant lines of the Brit can easily bring the final result into the overkill category. However, there are aftermarket developers that do not care about and DMC Design is one of them.

The company has recently released the first sketches of its DB-X concept, offering a multitude of visual enhancements for the DBS. The images, which come from digital artist [...]
