

Nissan GT-R turbo with 820hp tuning kit by South Side Performance

22/01/2009 10:09 by admin

If your 485 hp Nissan GT-R is not enough, the guys from the American South Side Performance have the solution. American tuner South Side Performance has created a turbo kit capable of boosting the Nissan GT-R up to 820 horsepower. The upgrade is made to fit on Nissan's stock parts facilitating quality of installation.
