

MTM supercharges the Audi R8

04/01/2009 12:46 by *Tuning News . US* | *Tuning - Carstyling - Car audio*

MTM has been adding horsepower to Audis for more than 20 years, and they have put that experience into developing a new twin-screw supercharger system that pairs up to the 4.2-liter V8 in the Audi R8. The addition of forced induction brings total output to 552 hp, coincidentally matching the ...
