

Ecotec-Powered Dragster Allegedly Sets New Quarter Mile World Record for 4-Cylinder Model at 6.7

22/06/2012 10:15 by admin

A dragster model that was created by Nicolas Brunet and which is fitted with a race-tuned 2.0-liter GM Ecotec engine has allegedly set a new world record for a four-cylinder racecar completing the quarter-mile run in 6.71 seconds with an exit speed of 207mph (333km/h) at the Napierville Dragway in Canada.[...]
