

Video: Mercedes releases a virtual tour of AMG headquarters

25/06/2012 10:53 by admin

The history of Mercedes's high performance arm, AMG, began back in 1967, and since then, they have created some of the fastest, coolest, and most innovative models on the market. To show just how much work is put into preparing these vehicles, the company has released a video featuring a virtual guided tour through the headquarters of Mercedes-AMG in Affalterbach with exclusive insights to the engineering and development of the performance brand of Mercedes-Benz. If you ever wanted to know how history is written, but haven't had the chance to actually take a ride trip to Affalterbach, this video is the closest you will get to finding out how an AMG model is developed.[...]
