

Gemballa GT Aero 2 Kit for Porsche Cayenne

25/06/2012 18:59 by admin

Tuners from all over the world have developed quite a passing for the Porsche Cayenne and we were recently wondering when we'd get to see a fresh aftermarket development destined for the German SUV. The answer came in a bit earlier today, from German company Gemballa, which has developed a new aerodynamic kit for the second-generation Cayenne (958). Gemballa introduced the GT Aero 1 pack for the Cayenne at the beginning of the c... [...]
