

Lamborghini Aventador LP700-4 by ADV.1

27/06/2012 19:20 by admin

In ADV.1 wheels' quest to conquer the automotive market by fitting their stunning wheels to the world's supercars, the firm recently took to the new Lamborghini Aventador LP700-4 with their latest set of ADV5.1 SL wheels. Just days after releasing pictures of a stunning joint venture with SP Engineering, this stunning pearl white Aventador is able to pull off the 5.1 SL wheels incredibly well. These amazing photos help to capture the car from some of its very best angles with the stunning titanium finish helping to top off the incredible look. This particular Aventador has yet to undergo any performance modifications, meaning its standard 6.0-liter V12 pumps out an impressive 692 horsepower, or 700 PS, at 8,250 rpm and 509lb-ft of torque at 5,500 rpm.[...]
