

Viper with 1,000 HP Rides on ADV.1 Wheels

04/07/2012 15:25 by admin

Wheels have to be the number one component for tuning your ride, since they influence the looks, ride and handling of your car. Thus, when you take on the challenge of preparing some wheels for a car that's got 1,000 hp, you know you don't have an easy task. However, this didn't stop Advance One Wheels from shoeing a Dodge Viper that had received a twin-turbo kit that took it to the aforementioned power leve... [...]
