

BMW M6 Gets D2Forged Wheels [Photo Gallery]

04/07/2012 15:25 by admin

Aftermarket developers have a big heart, as they also pay attention to certain models even after their predecessors are released on the market. We are now here to talk about a new example of this, which comes from D2 Forged, which has played with the previous-generation M6 Cabrio. A blue example of the E64 M6 was gifted with a set of D2 Forged CV deep concave wheels, with the wheels acting like an attention magnet. These come in a 21-inch... [...]
