

2013 Nissan GT-R on Strasse Forged Wheels [Photo Gallery]

08/08/2012 11:01 by admin

The Nissan GT-R is a perfect car to use as a display for a set of custom wheels, as its robotic appearance can assure one that the wheels it rolls on will receive plenty of attention everyday. Tuners are well aware of Godzilla's potential and the latest company to take advantage of this is Strasse Forged Wheels, which has played with a 2013 GT-R via its distributor Superior Automotive Design. The supe... [...]
