

## VW Golf GTI Gets Boost and Wrap from BBM

08/08/2012 12:01 by admin

To be honest, the Golf GTI Mk6 has been with us for a while, and we're not surprised to see power kits that take it all the way up to 310 or so horsepower. So with only 275 horsepower on tap, this one doesn't manage to impress us all that much. In fact, as a 3-door, the GTI isn't all that impressive to look, not while considering the Scirocco. But we're not going to be Debbie Downers about it, becau... [...]
