

Porsche 911 Carrera S (991) on Modulare Wheels [Photo Gallery]

08/08/2012 16:03 by admin

The Porsche 911 has to be the most tuned car in the world and the new 991 generation is thus receiving more and more aftermarket goodies. We're here to show you the latest tuning development for the new 911, with this coming from the US, where Modulare wheels has played with a Carrera S model. The 911 was fitted with a set of B18 Modulare wheels that use a monoblock construction and come in a 21-inch size. The rims are finished i... [...]
