

Ferrari California Gets Supercharged by CDC Performance [Video]

06/01/2013 18:16 by admin

While the Ferrari California is undoubtedly a fast car, some have argued that it is not quick enough, especially compared to any of the other cars in the Italian manufacturer's range. The power of the 4.3-liter V8 engine was increased from the factory by 30 hp, in 2012 as part of a new model-year update. St... [...]
