

VW Golf 7 Gets Body Kit from RDX [Photo Gallery]

06/01/2013 18:16 by admin

The seventh-generation Golf might not look much different to the one before it, but it's a huge step in the compact car market, setting the bar higher in terms of quality and efficiency. The car has only been on the market for a couple of months, and in fact the older Golf 6 is still available. Today, we bring you one of the first aftermarket programs for the Golf 7, coming from RDX Racedesign, who have created a series of after... [...]
