

## The Coolest VW Golf 4 Ever: Cartoons, Velvet and Mercedes Wheels

28/08/2013 13:04 by admin

Velvet wrapping really became a thing to look out for when that Ferrari hit London. Major non-automotive website picked up the story and it even ended up on 9GAG. Of course, we know that velvet wrapping is actually quite limited as a technology. The vinyl is quite thick and can't be used on just any surface, since it won't stretch or shrink that much. But the clever folks at CarFilmComponents found the perfect project car, an ol... [...]
