

Impul Nissan Juke Wrapped in Matte Charcoal Metallic [Video] [Photo Gallery]

28/08/2013 13:04 by admin

This next tuning project has been put together using goodies from all over the world. You have a car made in Britain, a body kit from Japan and just the wright wrap from China. Wrap Workz Hong Kong recently received a really cool crossover into their shop, the Nissan Juke had recently received a full bodykit from Impul and they were tasked with darkening everything up using their wrapping skills. The Japanese bo... [...]
