

## 2013-2014 Shelby GT500 Gets Brake Upgrade from Ford Racing

02/09/2013 12:14 by admin

Ford Racing Performance Parts has announced the introduction of new front brakes upgrade for the 2013 and 2014 model year Shelby GT500, which includes 15-inch rotors and 6-piston calipers. The new package, which is an improvement over last year's release, includes a pre-assembled brake rotor hat, all necessary hardware for installation and saves 10 pounds of unsprung mass compared to the factory one-piece rotors. &l...
