**Unlock your Cars Potential with ECU Remapping** When you are out on some open road in your high performance car you will want to take advantage of your vehicle and not be restricted at all, but there will be some restrictions on your car which are stopping you from doing this. The engine in your car will still be very powerful, but it will have been detuned by the manufacturer, and the reason for this is because in different countries where the car is sold there will be different laws and restrictions, climates, different qualities of fuel plus lots of other variables, so they need to make sure that the vehicle is suitable for use around the world. You can see why car manufacturers need to do this, but it also means that your vehicle is not performing to its maximum potential.

### Overwriting Restrictions Placed on the Engine

If you want your car to perform at its maximum potential you can get your car tuned to take off these restrictions, and this is with ECU remapping. There will be an [engine control unit which is a computer in the car](#) that can be altered or remapped to lift these restrictions, and this is done by specialists that overwrite the software on the ECU with new software. Once you have this done you will immediately notice the difference once you get behind the wheel, and you will love the improvements that have been made and how your car really is now a high performance vehicle that has no restrictions with a much better driving experience.

### Remapping Carried out by Specialists

Many people are unaware of these restrictions that are placed on vehicles or they think that ECU remapping is dangerous, but this is certainly not the case and can easily be carried out by specialists such as [ECU Flash Limited](#). When you get your vehicle remapped it will become more powerful, get rid of flat spots, give more torque, have better throttle response plus plenty more benefits, and it will feel like driving a new, upgraded model once it has been completed. It is a simple, easy and straightforward process for the remapping specialists, and this means that you do not have to worry about your vehicle in any way, and before long you will be behind the wheel again and able to enjoy driving it restriction free.
