

Mercedes-Benz E-LM63-700 by Loewenstein

26/09/2014 12:09 by admin

The Mercedes E63 AMG prides itself in blending performance with luxury. That seamless combination has allowed the luxury saloon to carve a niche for itself in the market, but German tuner Loewenstein Manufaktur isn't impressed with just a standard E63 AMG; it wants to turn it into a powerhouse. That should always be the formula for any aftermarket company that plans to succeed in the realm of making fast cars faster. You won't see any frills on this program. None of those unnecessary dress ups and none of those fancy paint colors. What you see is what you get, until you pop open the hood and see where the magic happens. I'm not going to divulge the details of the engine upgrade just yet, but I will tell you that it's impressive enough to give the E63 AMG the juice it needs to compete with a lot of supercars today.[...]
