

Ford Fiesta ST Gets 240 HP from GGR, Thanks to Cold Air Induction System [Video]

26/09/2014 12:09 by admin

The highly competitive hot hatch market has spurred specialist tuner Graham Goode Racing (GGR) to push the limits of Ford's 1.6-liter EcoBoost engine. In European specification, this produces 182 hp for the front wheels of the Fiesta ST to enjoy. However, a number of mods have increased that number to 240 hp. Watch out Golf GTI, because you might lose the next drag race! GGR calls its power kit the "ST240 package" a[...]
