Did you know there is a stone statue of the Mk1 Golf GTI in Reifnitz? For most, this is just an ordinary family hatch with a bigger engine, but the legend of the GTI is larger than all the gods of Greek mythology. This is Ares, god of war and chip tuning, otherwise known as a 400 horsepower Golf GTI from ABT. The tuners themselves explain it best. 300 Spartan warriors were all that was needed to keep a mighty conquering army at bay. But i...[...]
