The Suzuki Swift isn't strictly speaking a Japanese car, not in the same sense as a Jimny or the Wagon R. But, this Hungarian hatch has a hot side to it, which the world knows as the Swift Sport. That's the target of today's tuning project, which we have to say is rare. We know because the ZC32S codename refers to the 1.6-liter naturally aspirated engine, which somehow is capable of making turbo whistle noises. Somehow, a t... [...]
