

Golf 6 GTI Gets Widebody Kit from Ingo Noak: the European Rocket Bunny?

10/09/2015 13:22 by admin

Over in Japan, everybody is tuning the Toyota GT 86, but the Europeans only like to play with the Golf GTI. We now even have a German version of the famous Rocket Bunny widebody kit. It comes from Ingo Noak Tuning, a company from Lusselsfeld that very few people know about. For taking the old Golf 6 GTI and giving it new life, they deserve a medal. The widebody kit works just like the one from Japan. It consists ...[...]
