Wald International, the well-known Japanese tuner, revealed today its latest customization kit for the latest generation of the Toyota Land Cruiser. This new kit includes a re-designed front bumper, new side sills, a new roof spoiler and a re-designed rear apron with integrated air diffuser and 4-pipe exhaust system. The new kit is completed by the new 5-spoke alloy wheels. No words about the price yet but as soon as we will find out something we will let you know!
