

SEMA 2008: ASI TETSU GTR based on Bentley Continental GT

04/01/2009 13:54 by [tuningnews.net](#) - latest news

ASI's automotive masterpiece, the TETSU GTR, is a full custom complete car program for the Bentley Continental GT. Utilizing a super-efficient exhaust system, intensive ECU tuning, enlarged turbocharger turbines, and an improved engine coolant system, the TETSU GTR achieves a breathtaking and unprecedented 800 horsepower.
