

AVUS Performance Audi A5 Coupe 'Black Power'

05/05/2009 21:34 by admin

It appears that AVUS Performance wants to avoid any mistranslation troubles after the outcry it caused in the media for the RS6 Avant 'White Power' moniker, so the German tuning boutique chose to play it safe and simply name its new proposal, the A5 Coupe Matte Black. The vehicle's stealthily looks were achieved by wrapping the car all around with matt black foil and painting some details like the front grille, mirror covers and the rear diffuser in a black finish.

The A5 Coupe's looks are rounded off by a set of 21-inch Jofiel black Limited Edition wheels in sizes 9,5x21" front and 11x21" at the rear and a set of S5 LED tail lights.

This A5 Coupe comes with Audi's 3.0-liter V6 TDI diesel engine featuring an upgraded ECU that helps boost output to 275HP and 600Nm (442.48 lb/ft) of torque. Last but not least, the German tuning house has equipped the A5 Coupe with KW coilovers with adjustable compression and rebound dampening.
