

Caractere styling kit for Audi A5 Cabrio

11/06/2009 11:02 by admin

After unveiling their sexy body kit for the Audi A5/S5 coupe last year, Caractere has decided to offer a similar series of styling accessories for the new A5/S5 Cabrio.

The most noticeable change is an aggressive front bumper which features massive air intakes and integrated fog lights. Out back, the sporty styling theme continues as Caractere offers a bold rear diffuser with optional tailpipe exhaust tips. The company also markets their unique CW1 wheels which are available in 19" and 20" sizes. Although pricing information wasn't released, the styling accessories are currently on sale.
