

## IND's BMW M3 Coupe E92 Dakar Yellow Project

07/07/2009 11:59 by admin

Not really fans of extreme mods here at Carscoop preferring a more mature approach when it comes to tuning. That's why we like IND's latest take on the BMW M3 Coupe with the Dakar Yellow project. The subtly modded M3 comes with selected black accessories that includes 18-inch HRE alloy wheels shod in 275/35 R18 Nitto rubber all around and a Vorsteiner front lip spoiler and rear diffuser, which seem to work pretty well with the Dakar Yellow paint job.

Our only objection in terms of styling concerns the smoked tail lights but overall, the E92 looks the part and stands out without being obnoxious. IND's M3 finished project car also features a KW suspension kit and custom made Brembo brakes.

### PARTS

- Brembo 365x34mm / 345x28mm with custom Race Grey finish and Race Brembo font
- HRE 18&Prime; HRE Monoblock Race Wheels
- Nitto NT05 275/35/18 all around
