

## Suzuki Wagon R by DAMD

07/10/2009 21:55 by admin

If anything else, you must admit that the folks over at DAMD have a vivid imagination when it comes to styling up small city cars like the Suzuki Wagon R. The aftermarket tuning house treats the Japanese mini -literally- van Wagon R with a new bodykit that comprises of a gaudy grille matched to a new front bumper that comes with an integrated lip spoiler and aluminium accents, side skirts, roof spoiler and a new rear bumper with an aluminium center piece that houses the new dual exhaust tips.

The vehicle's exterior appearance is rounded off by a set of Crimson alloy wheels in a black finish with orange colored rims that are wrapped in 165/40R 17 tires.

Other available options include a sport suspension that lowers the Wagon R's ride height, specific floor mats and black leather seats with contrasting orange stitching.
