

Mercedes C-Class Wagon by Piecha Design

30/11/2009 15:19 by admin

German tuning firm Piecha Design has put their package for the Mercedes-Benz C-Class T-Model on the market. Parts can be obtained separately, but the combined total adds up to about €9,330.

Included in the package is a set of LED lights, headlight masks, spoiler, and two-lamella grille up front. In back, owners will notice the new diffuser and original AMG exhaust. Like the front spoiler, the rear diffuser can be coated in carbon.

Other features include the 19-inch dp2 Phantom wheels wrapped in Dunlop tires, a new set of springs, and a threaded suspension. The suspension may be lowered by either 20mm or 35mm.

Piecha's Mercedes-Benz C-Class T-Model is available now through the company's website.
