

Volkswagen Golf VI GTI by Wimmer RS

12/12/2009 18:13 by admin

Wimmer RS from Solingen has for a long time established its reputation by spectacular car conversions. Nevertheless, strict appropriateness for daily use is also programmed by Wimmer RS. VW Golf VI GTI 2.0 TFSI with its powerful 211 hp engine is a thoroughbred sports car already ex works. After a kind of fitness cure at Wimmer RS tuning forgery, the little sports car will definitely become a weapon.

Now, GTI turbo engine generates full 386 hp with the torque of 455 Nm. This is due to an optimized turbo loader with manifold, the use of a sports CAT, the adaptation of the intake system, the modified fuel pump, innovative injection valves, piston rod and intercooler as well as high grade steel sports exhaust system. Don't forget the proprietary engine electronics and the modification of the TSI-unit. All this provides for the maximum speed of 267 km/h or 166 mph respectively. For safety reasons Solingen has furthermore installed a sports clutch that guarantees better power transmission and very high driving stability.

Concerning the wheels, Wimmer RS gives the choice of 18-, 19- and 20" rims. As top of the pops the Solinger car tuner offers a complete wheel set of Motec „Antares" in 8x20 inches with Dunlop Sport Maxx GT 235/30 ZR 20 high performance tyres.

The GTI handling has been moreover optimized by the height-adjustable HR sports coilover suspension system.
