

Audi S3 by MR Car Design

29/12/2009 22:04 by admin

The individualization of MR Car Design for Audi S3 series underlines the unique character of the "sportster" in a distinctive way. Another evidence thereto is given by actual S3 retrofitting on the base of S3 2.0 T-FSI: equipped by quite a lot of performance, a more vigorous design and complete matt foliation of the car body.

The stage III performance kit includes not only new MR Car design engine control software or sports exhaust allowing to uprate engine performance up to 337 hp with 450Nm of torque. Engine overhaul also includes a downpipe incl. sports cat, sports exhaust system with optimized dynamic pressure, the suction way optimization with a big intercooler and, as already mentioned, engine control software - additionally the TÜV-certified hand weld 2-flute high-grade steel sports exhaust system with optimized counter pressure.

8x19" Emotion-Wheels (Strada) hyper-black alloy rims by their long-curved spokes guarantee better airing of the wheel house and the view on huge serial braking system (against upcharge with StopTech braking system). Wheels with Dunlop Sportmaxx high performance tyres 235/35 ZR19.

In addition the darkish look of the complete matt foliation by Cover EFX (CFC styling station Erftstadt/Germany) gives the car body overtaking prestige on the highway.

By its tried and trusted V3 coilovers with pressure and tension phase adjustment KW Automotive contribute to the speedway suitable setup.
