

Porsche Panamera by Techart

05/02/2010 14:25 by admin

[TechArt](#) has released its Individualization Program for the Porsche Panamera model range. Now sportscar lovers are able to get the Panamera S and Panamera 4S refined according their own vision.

Exterior: the Aerodynamic Kit I presents the four-seater in an elegant and excitingly sporty way. The three part front spoiler discreetly hallmarks the dynamic front apron of the Panamera. At the same time, it reduces effectively the buoyant forces at the front axle and ensures optimal flow of cooling air to the braking system.

Wheels: 21-inch TechArt Formula or sporty 22-inch TechArt Formula II light-alloy wheels packed with Conti Sport Contact 3 tires or Michelin Pilot Sport PS2 tires.

Interior: a wide variety of customization options such as two tone leather upholstery, decorative stitching,alcantara headliners, sport steering wheel, exotic wood trim, and body-color interior accents.

The TechArt Panamera will be shown at the Geneva Motor Show in March.
