

G-Power Typhoon Black Pearl

05/02/2010 16:14 by admin

[G-Power](#) has released the limited edition Typhoon Black Pearl. It is based on the X5 Typhoon the Black Pearl features an aggressive body kit with revised fascias, a new hood with better ventilation, and wider fender flares and all this dressed in a monotone black.

From [G-Power](#) fitted under the hood the 4.8-liter V8 engine with a SK III RS supercharger, a carbon fiber air intake, better cooling system, forged pistons from Mahle, new fuel injectors with larger fuel capacity, high performance exhaust system from SpeedFlow including racing headers, catalysts and racing end mufflers. To make all this work together the engine electronic system has been revised. The [G-Power](#)'s program for the BMW X5 include also a rear diffuser, a roof-mounted spoiler, aerodynamic side skirts, and 23-inch Silverstone aluminum wheels wrapped in high performance Michelin tires.

Thanks to all this the engine produces 625hp and 700Nm. and give the Black Pearl SUV max speed more than 300km/h. and sprint time for 0 to 100km/h of 4.5sec.

The [G-Power](#) Typhoon "Black Pearl" cockpit can be refined with exclusive accessories like an ergonomically formed sport steering wheel, a speedometer in Typhoon design and interior linings made of full carbon. Further wishes can be fulfilled with exclusive interior equipments in all possible leather and ultra-suede colors. The Typhoon Black Pearl is currently available for order starting from €295,000 (\$415,225 USD)
