

Mercedes Benz E 500 by VATH

02/03/2010 14:56 by admin

German tuners V  th Automobiltechnik released their set of upgrades for the Mercedes-Benz E 500.

By modern computer engineering, V  TH succeeded in increasing the power of E 500 Series-Engine (388hp) up to 435hp by optimizing the software, including raising the maximum speed limit to 280 km/h, sport air filter and complete sport exhaust device with sport catalysts.

For 2,963€ you get 20-inch three piece Smiths wheels, adjustable suspension and six pistons brake calipers.

V  TH offers nearly boundless possibilities for individual interior equipment. When requested, the inside of the car can be entirely trimmed with colored skin. In addition, they offer Carbon-Interior-Packet for high-quality interior possibilities in all variations.

The rest of the package is new front fascia, decklid spoiler, and rear diffuser made from carbon fiber.
