

Ferrari 458 Italia by Underground Racing

04/01/2011 01:22 by admin

The guys from Underground Racing really do have some fantastic projects coming out of their North Carolina-based firm and their latest tuning project will surely match up to the newly-formed high expectations for the twin-turbo loving tuners. Most recently known for the lavish twin-turbo kits for the Lamborghini Gallardo and Murcielago, Underground Racing is in the process of slapping on another luscious turbo kit to a different kind of supercar: the Ferrari 458 Italia.
